

ONETOUCH® PORTFOLIO SALES AID IPAD COVERAGE UPDATE

Home screen

Press **CREATE GRID** button to add a new grid.

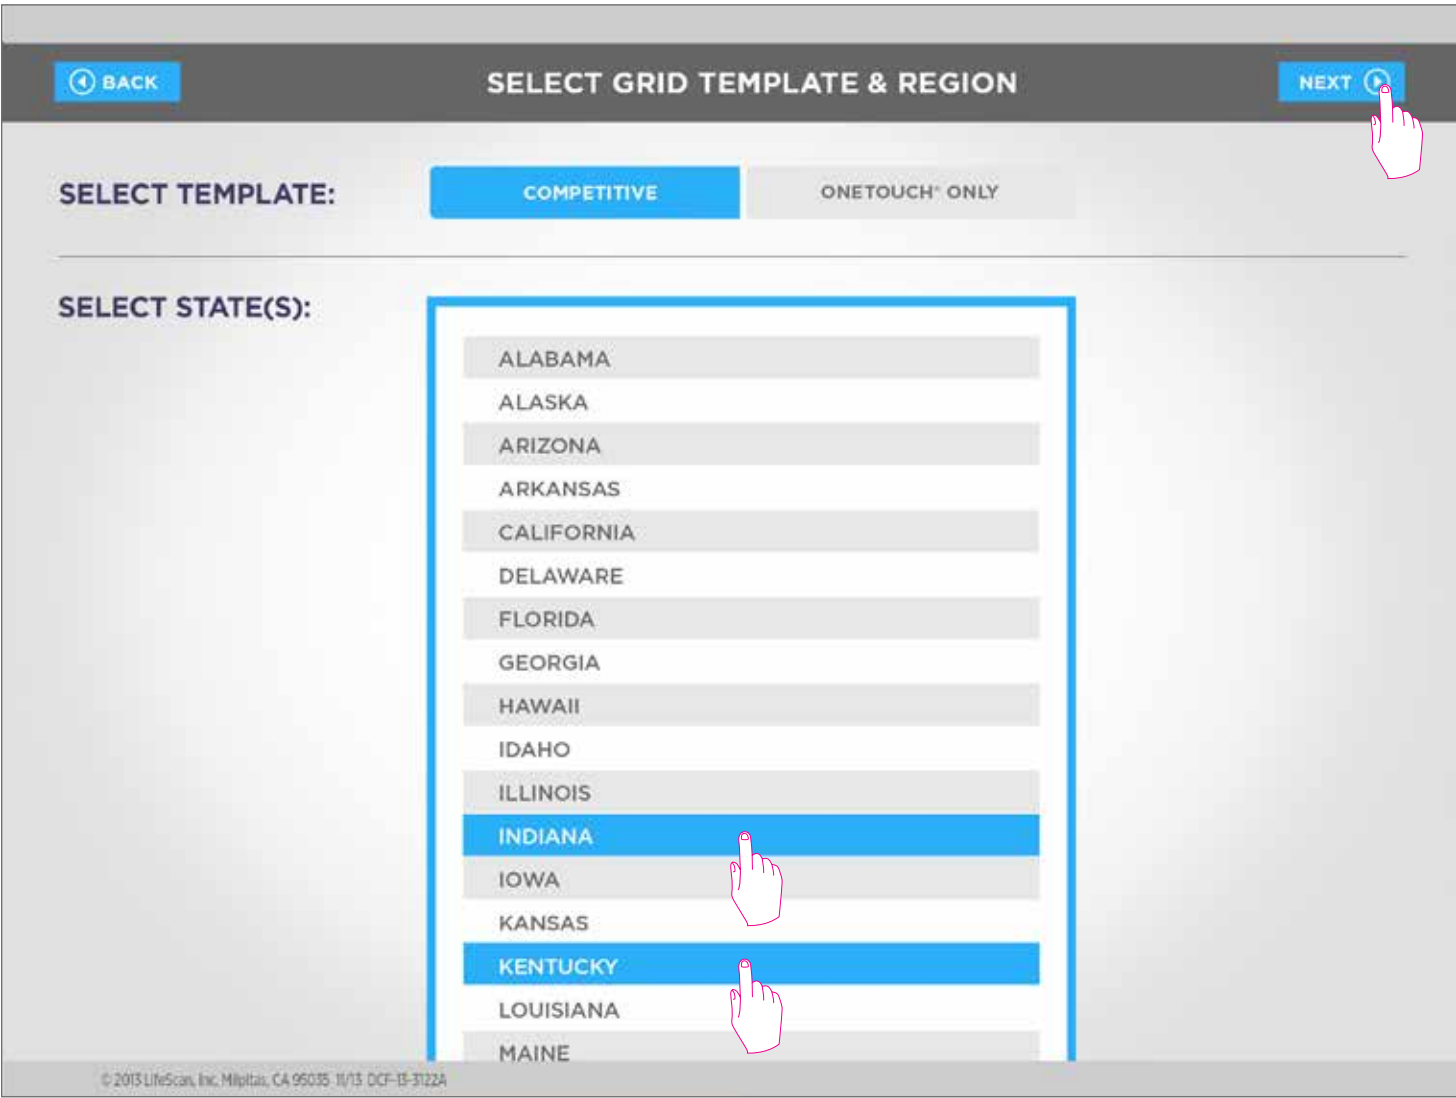

MENU button allows user access to the **MARK**, **EDIT**, and **DELETE** functions.

SELECT GRID TEMPLATE & REGION screen

CREATE GRID button takes user to the **SELECT GRID TEMPLATE & REGION** page. User chooses either **COMPETITIVE** or **ONETOUCH® ONLY** as a grid template and then selects the state(s) that are covered.

BACK button returns user to the previous page.

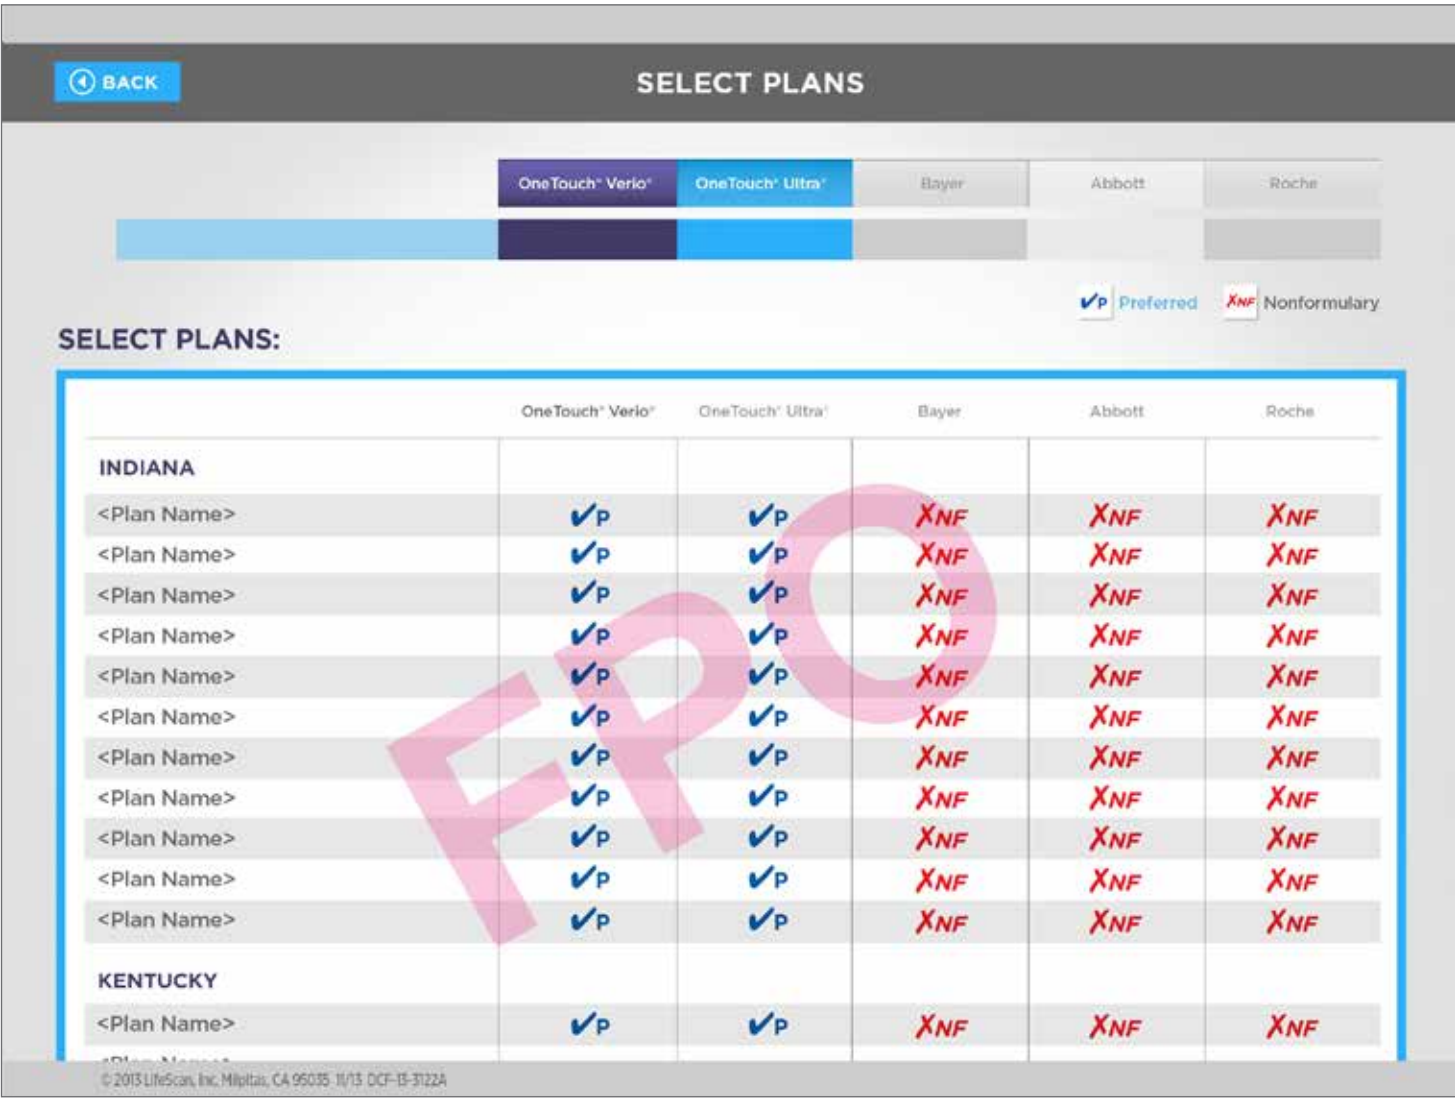

SELECT GRID TEMPLATE & REGION screen continued

When user selects a state, the row turns blue and the **NEXT** button appears.

NEXT button takes user to the **SELECT PLANS** screen.

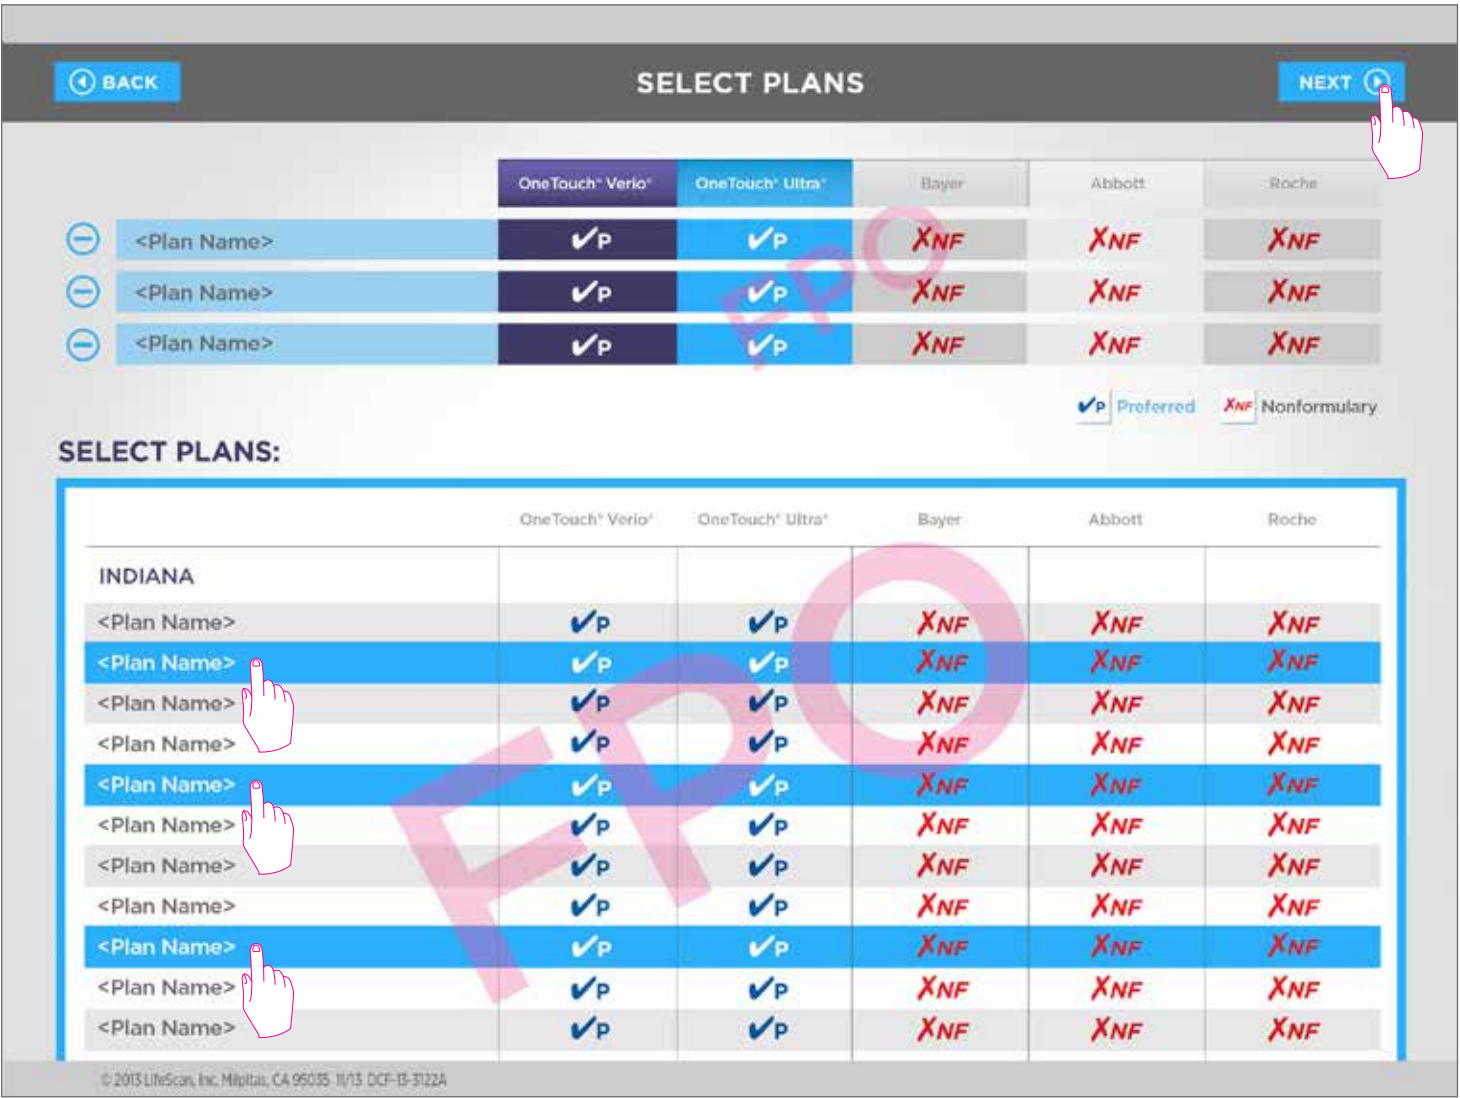

BACK button returns user to the previous page.

SELECT PLANS screen

A list of health plans based on the selected state(s) appears below a blank comparison chart template.

BACK button returns user to the previous page

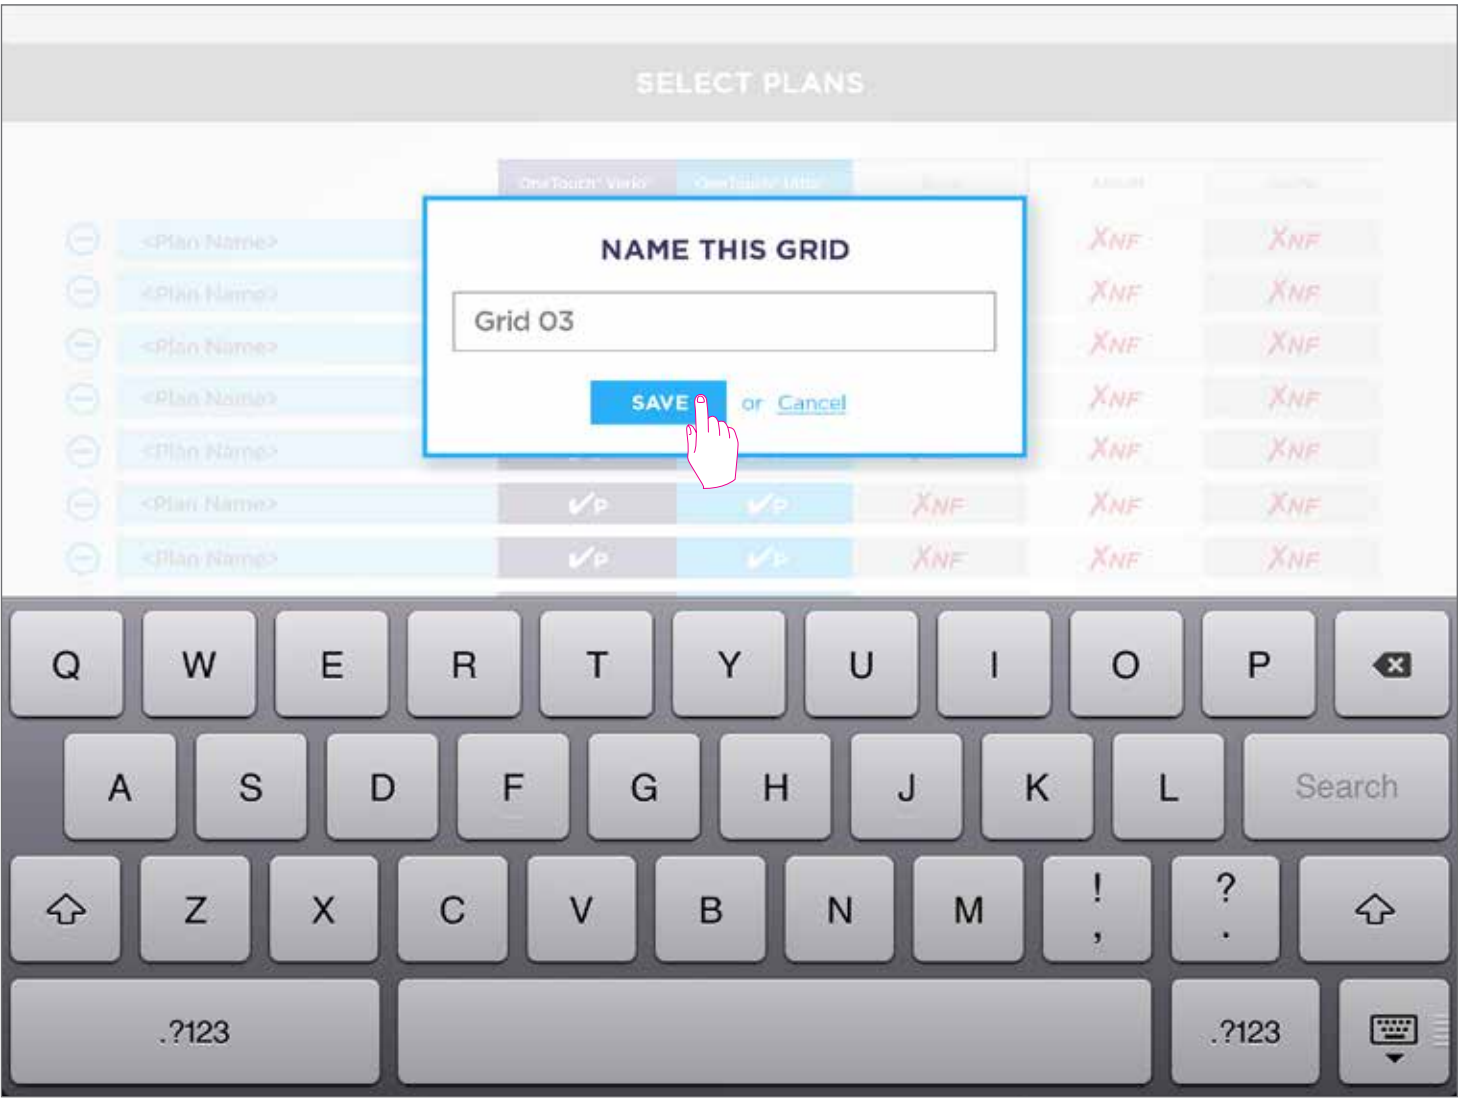

SELECT PLANS screen continued

As user selects plans from the lower list, they highlight in blue and populate at the top of the screen. User can add up to 10 plans to the custom grid and can remove a plan by selecting the minus button to the left of it.

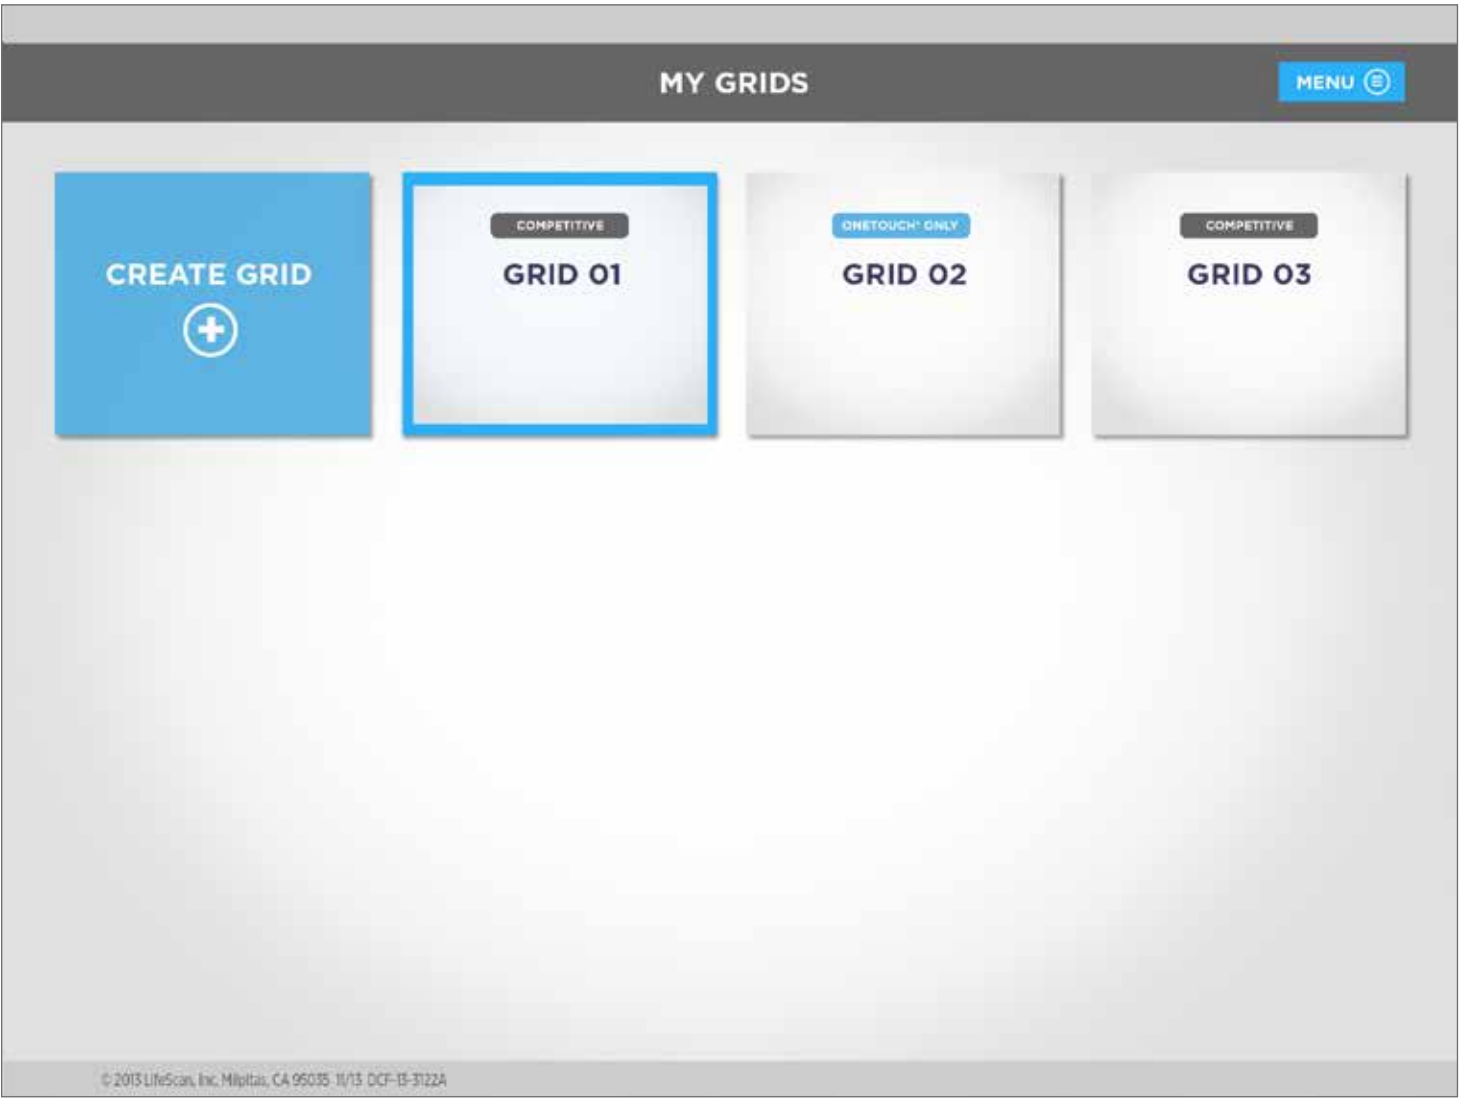

NEXT button takes user to the NAME THIS GRID overlay.

BACK button returns user to the previous page.

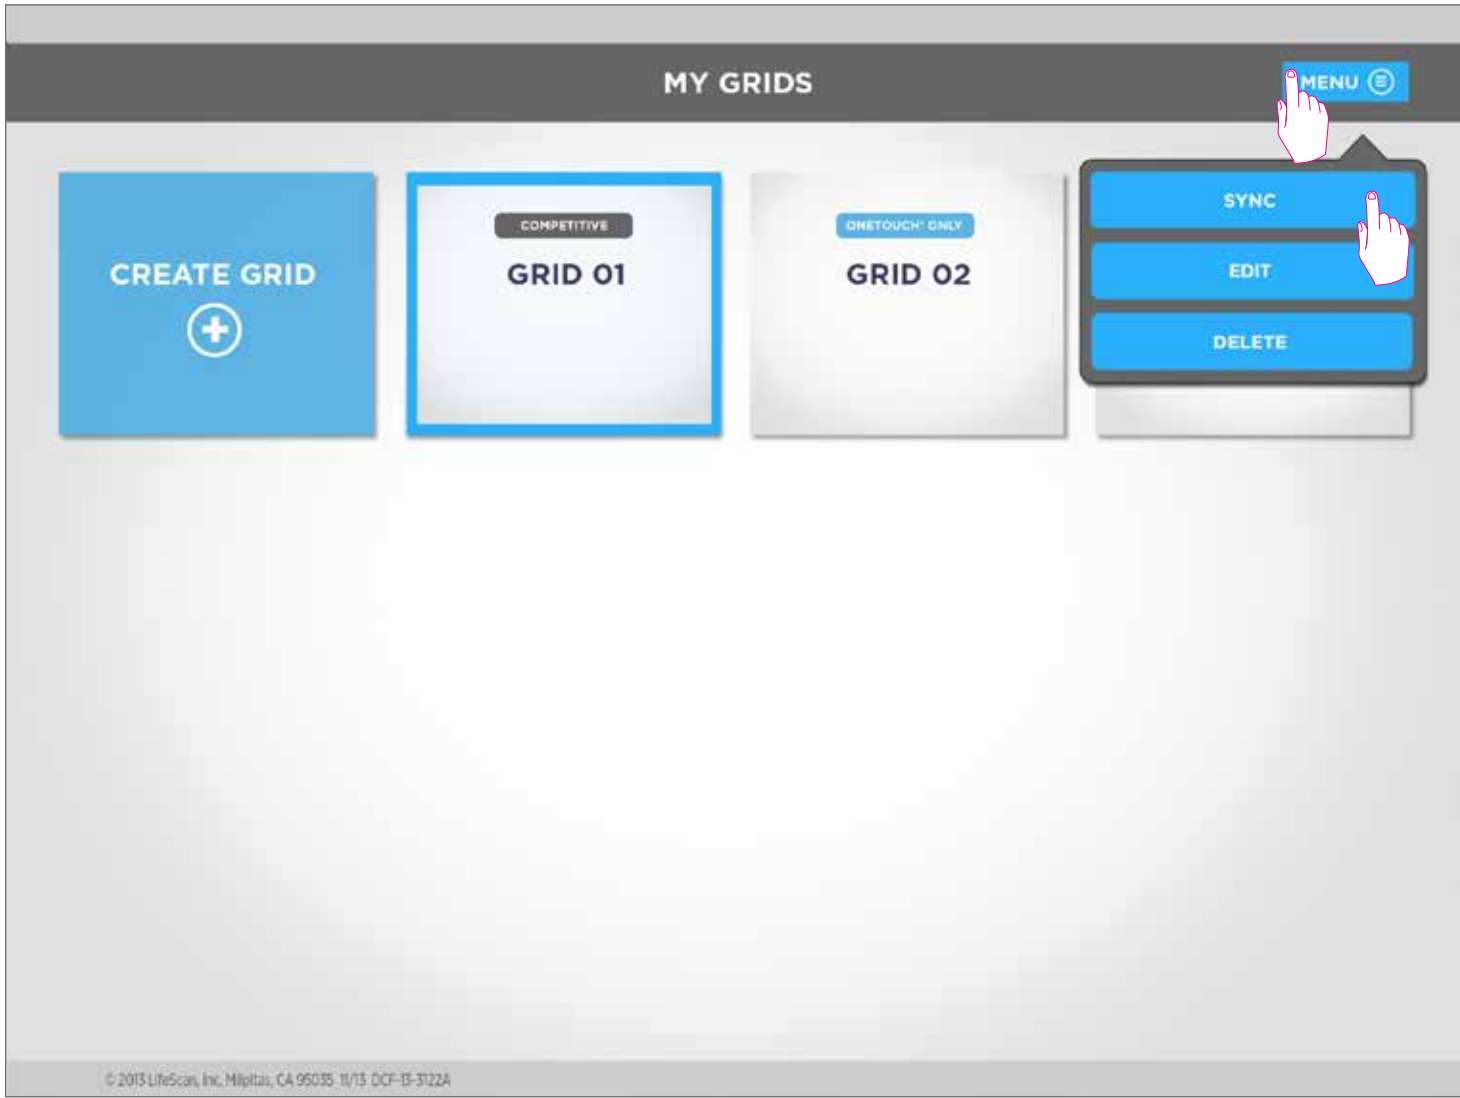

NAME THIS GRID overlay

NAME THIS GRID overlay prompts user to name the new grid.

Home screen with added grid

The new grid now shows up on the home screen.

SYNC function

On the home screen, users can select the **SYNC** function from the drop-down **MENU** button.

SYNC function continued

The existing synced grid is marked with a blue border and check mark icon.

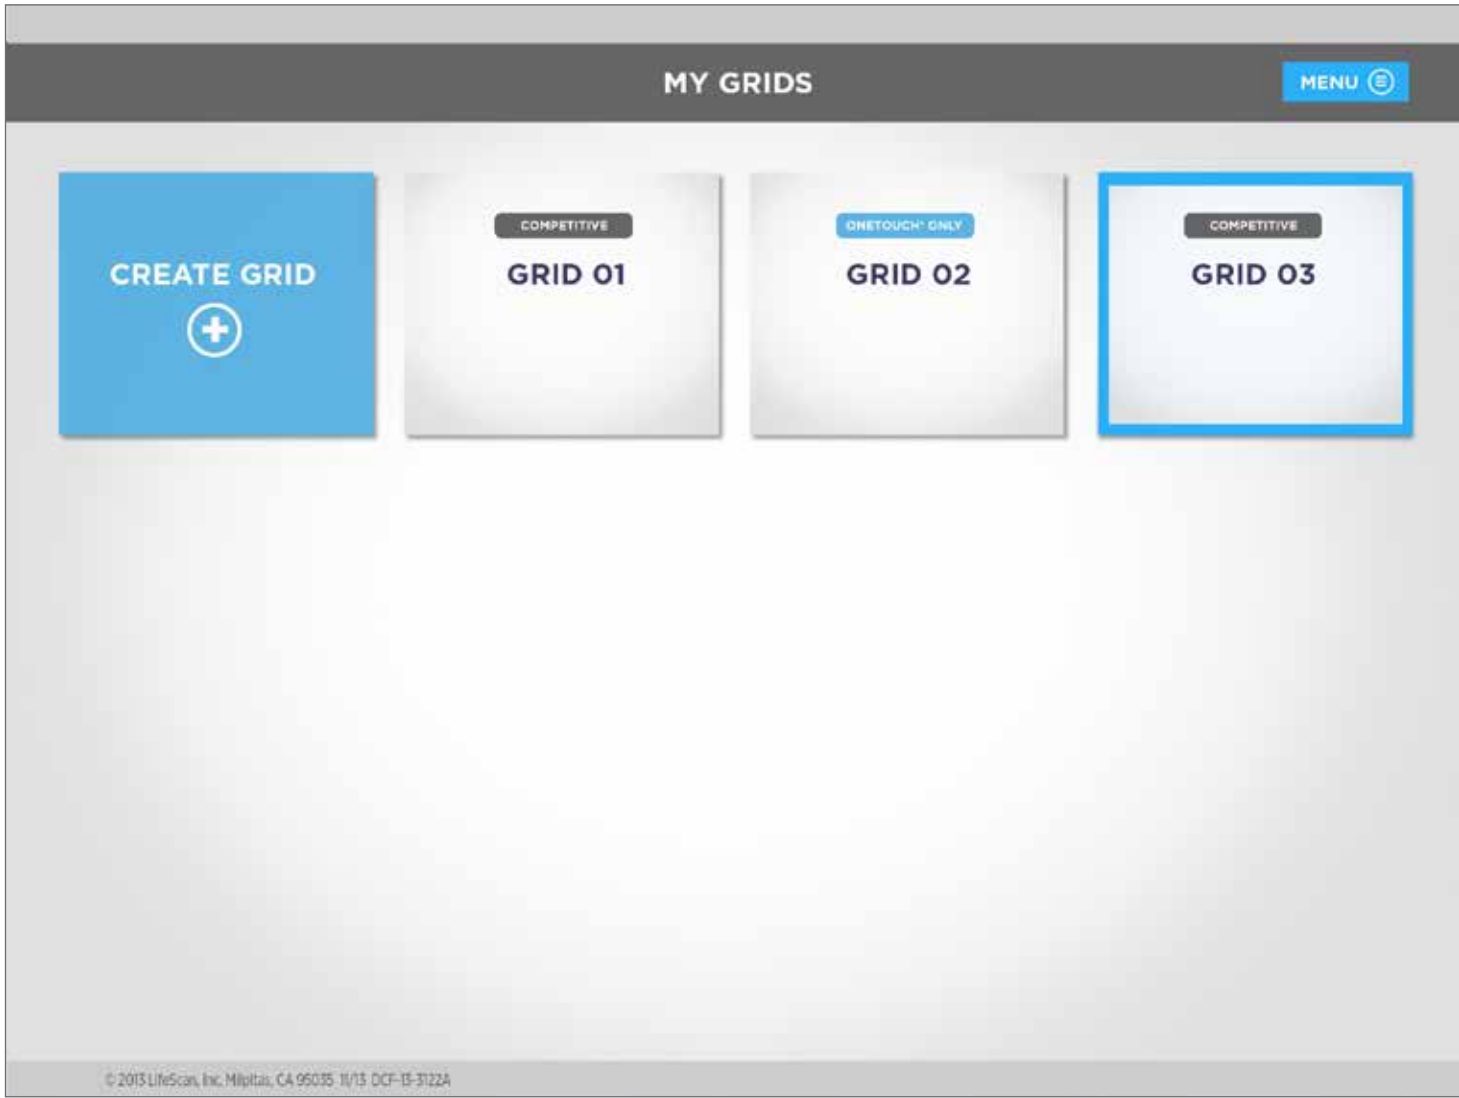

SYNC function continued

Users can change the plan they wish to sync by selecting its tile. The highlighted border and icon move accordingly.

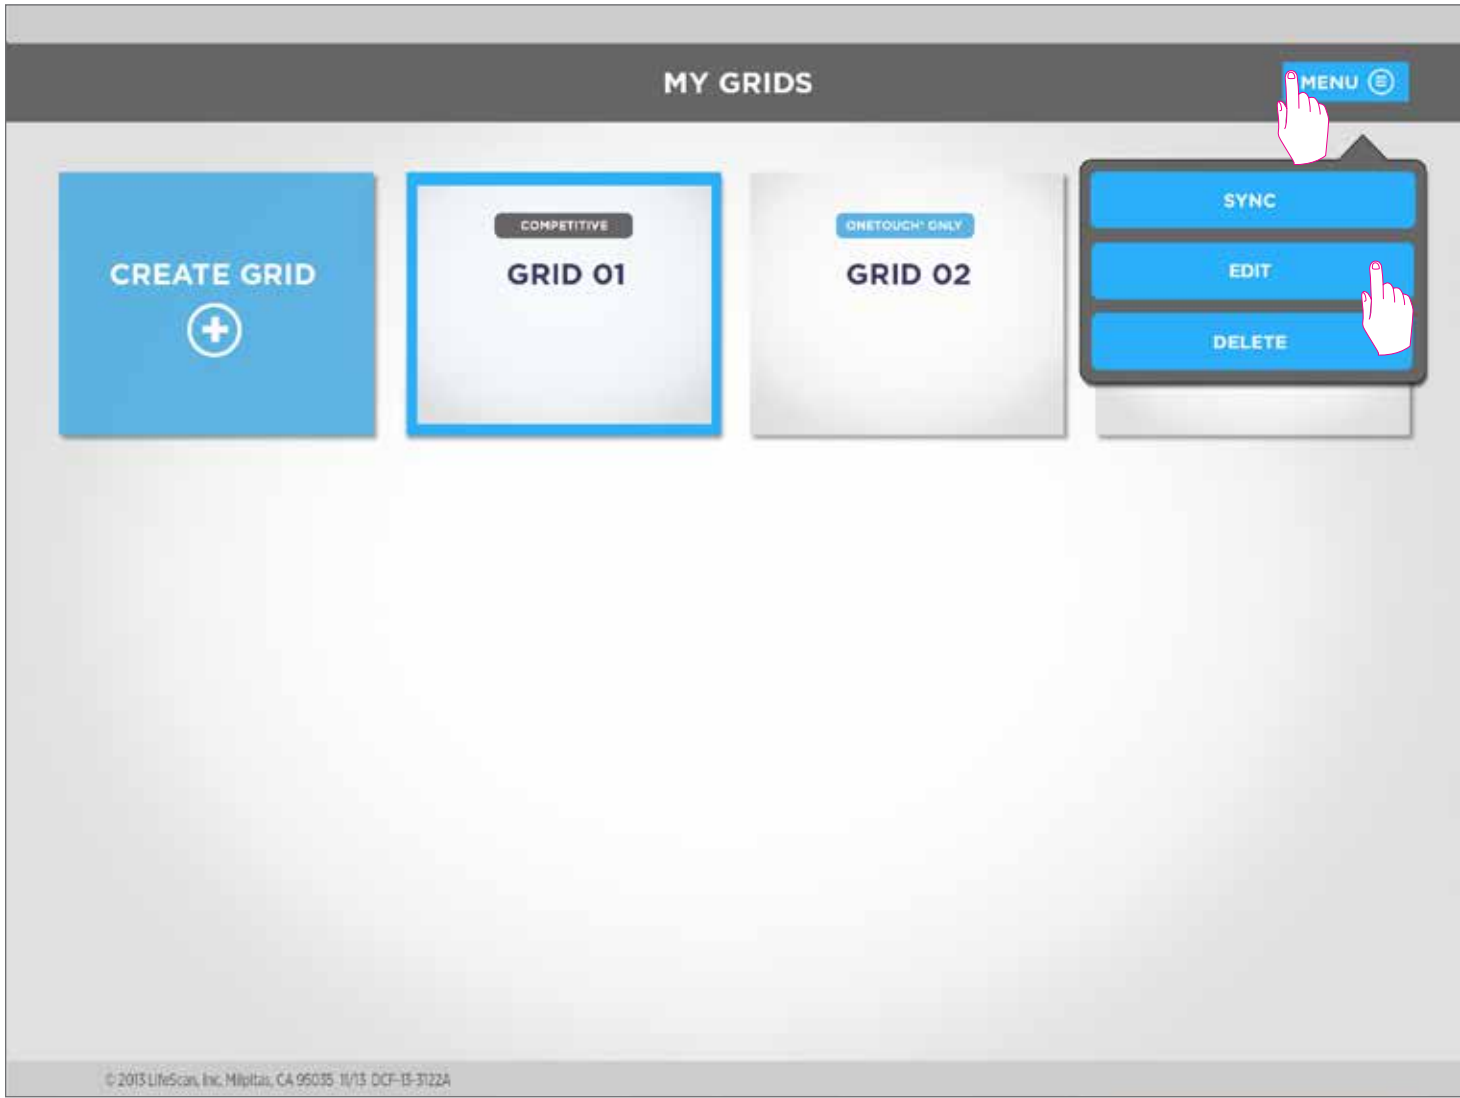

SELECT button returns user to the **HOME** screen displaying the newly synced grid.

CANCEL button returns user to the home screen without changes.

SYNC function continued

The newly synced grid is now identified by a blue border.

EDIT function

On the home screen, users can select the **EDIT** function from the drop-down **MENU** button.

EDIT function continued

Users can choose the grid they wish to edit by selecting its tile, which will be marked with a check mark icon.

SELECT button takes user to the **EDIT GRID** screen.

CANCEL button takes user back to the home screen.

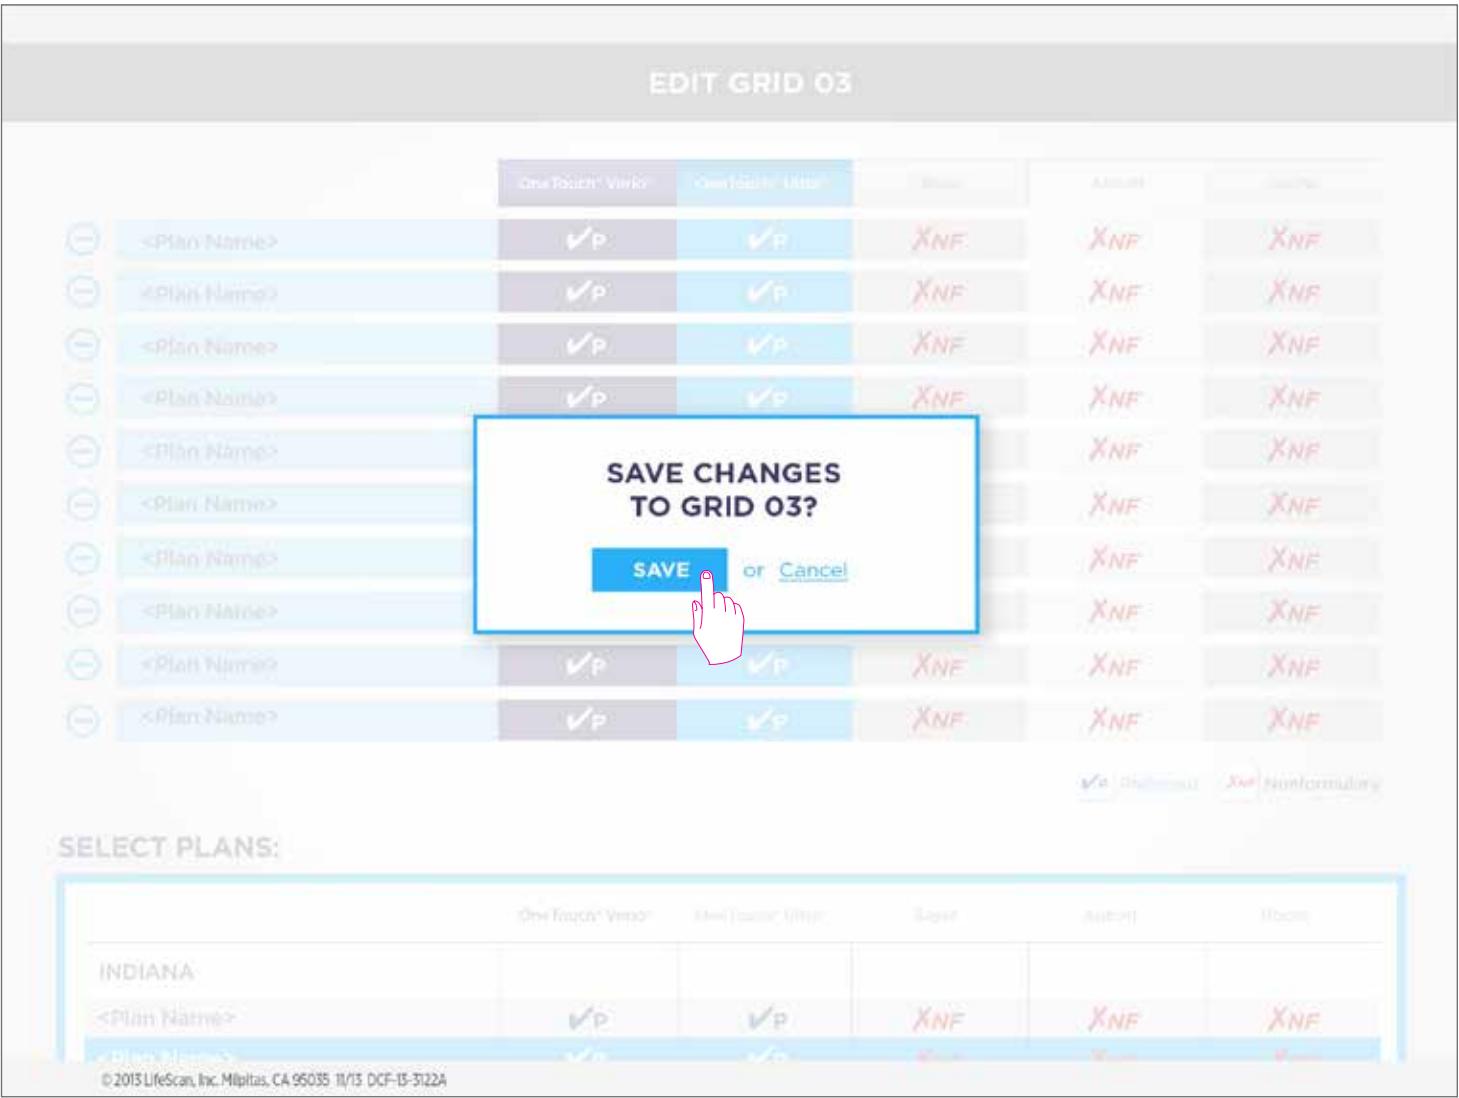

EDIT GRID screen

User can remove a plan from the top grid by selecting the minus button to the left of it.
User can add plans from list below based on previously selected region.

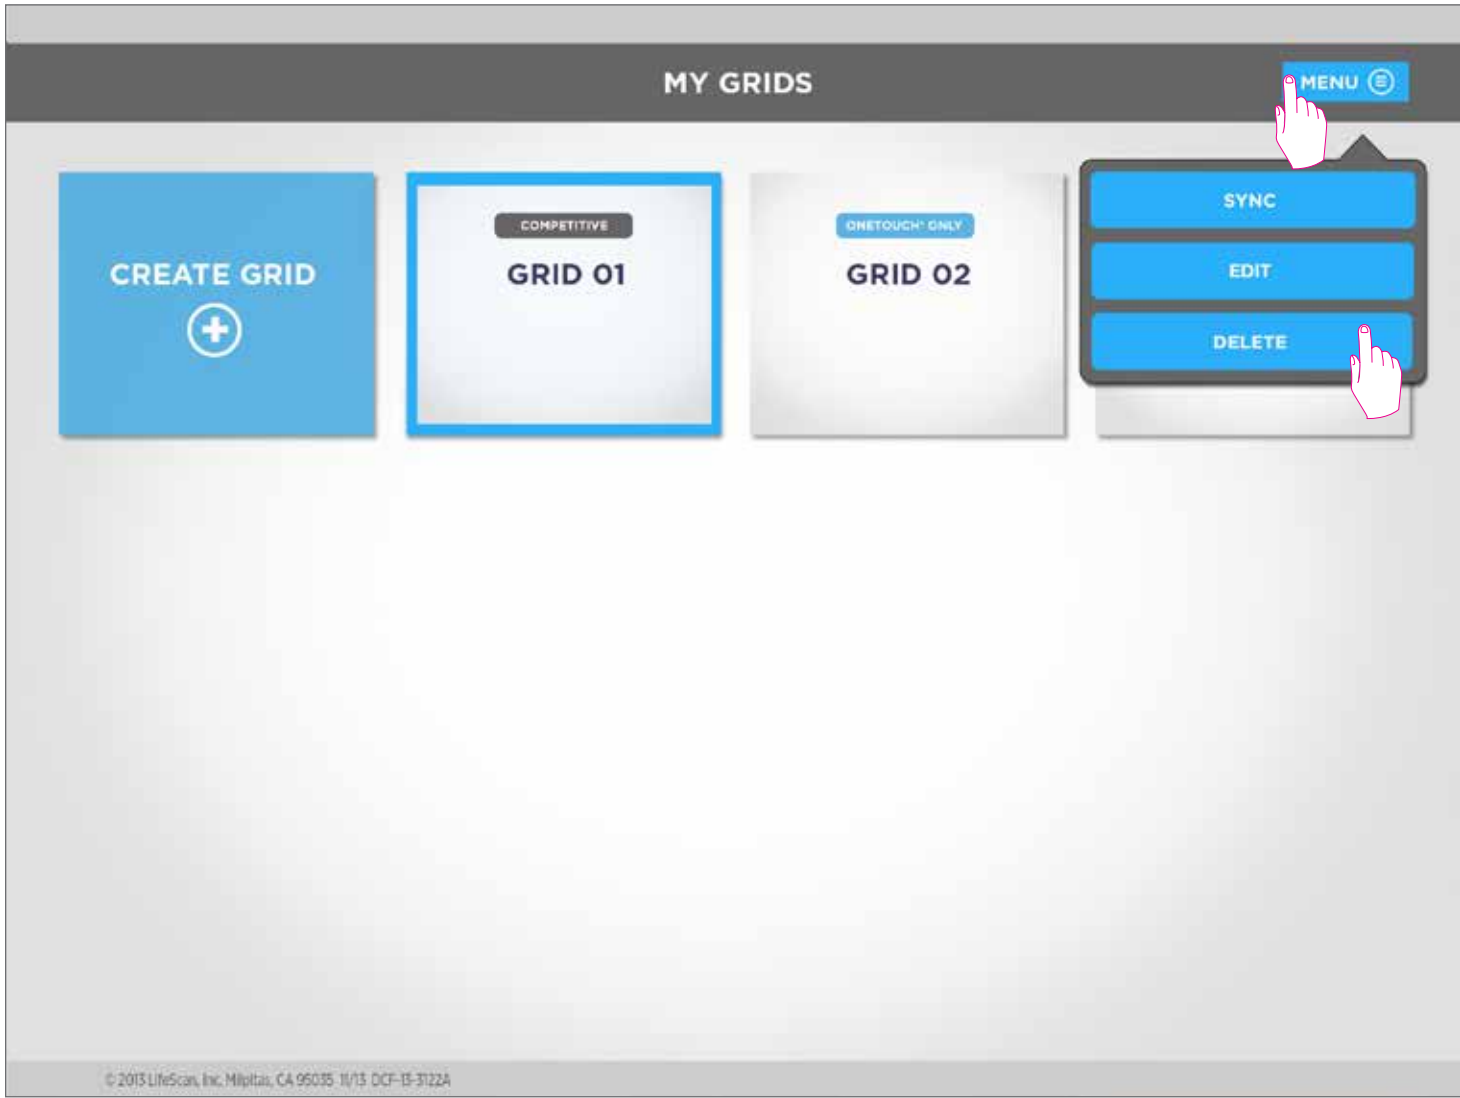

CANCEL button takes user back to the home screen.

SAVE button takes user to the **SAVE CHANGES TO GRID** overlay.

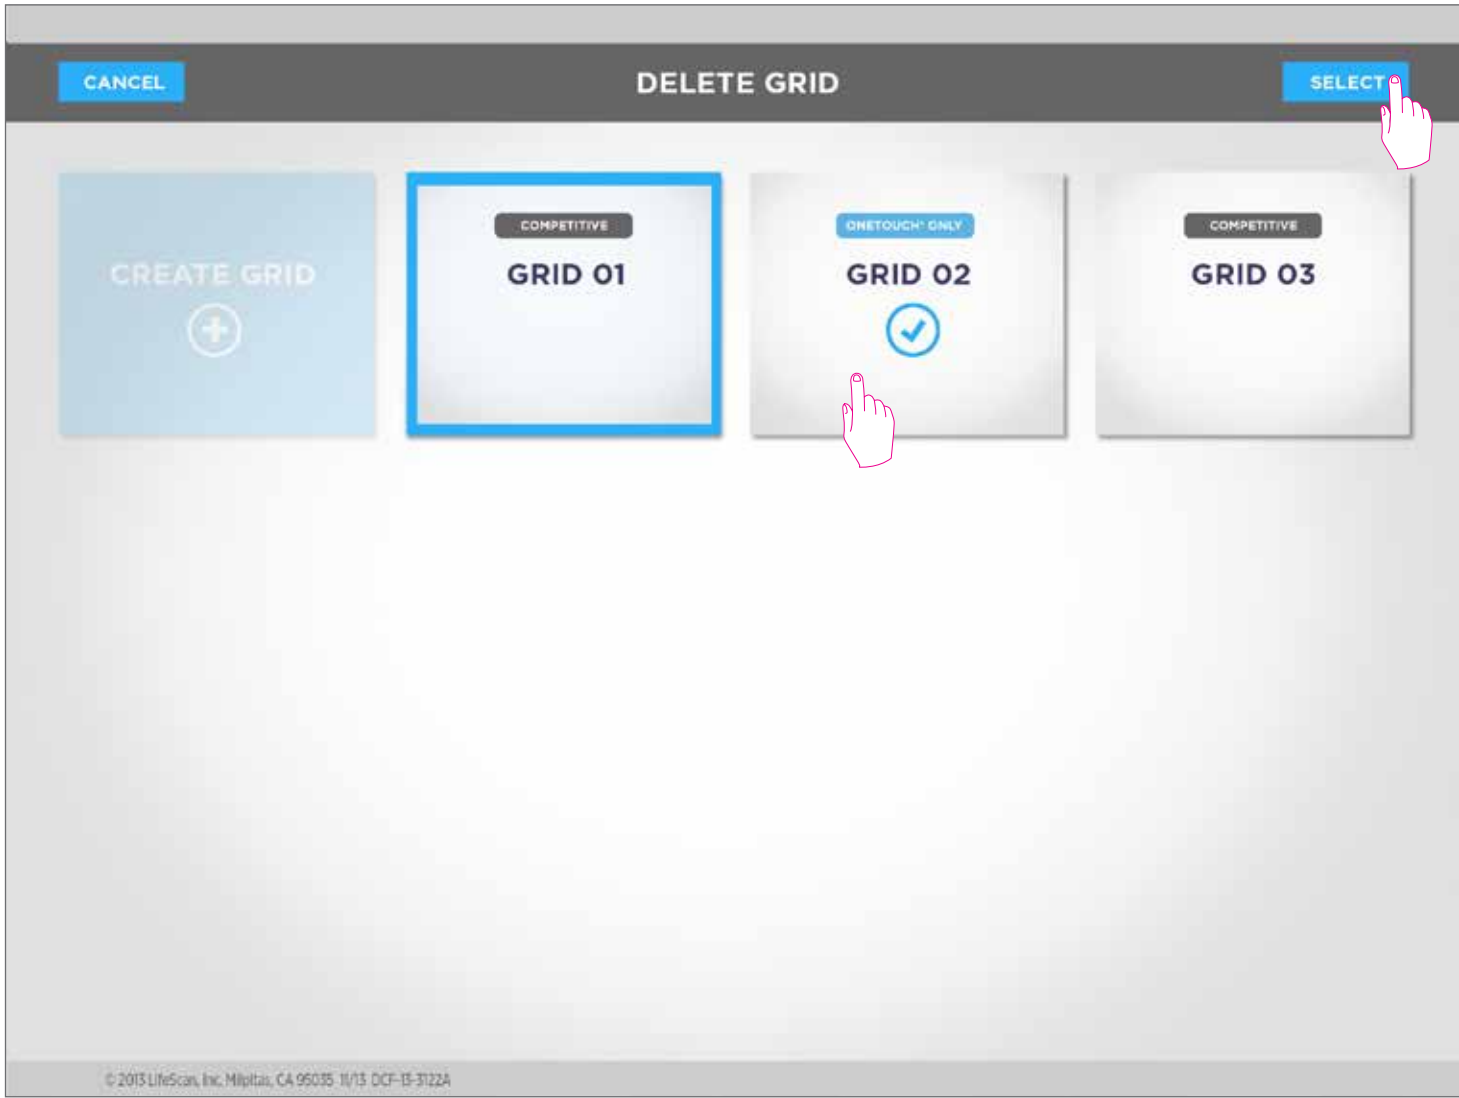

SAVE CHANGES TO GRID overlay

Users are prompted to accept saved changes to specified grid.

DELETE function

On the home screen, users can select the **DELETE** function from the drop-down **MENU** button.

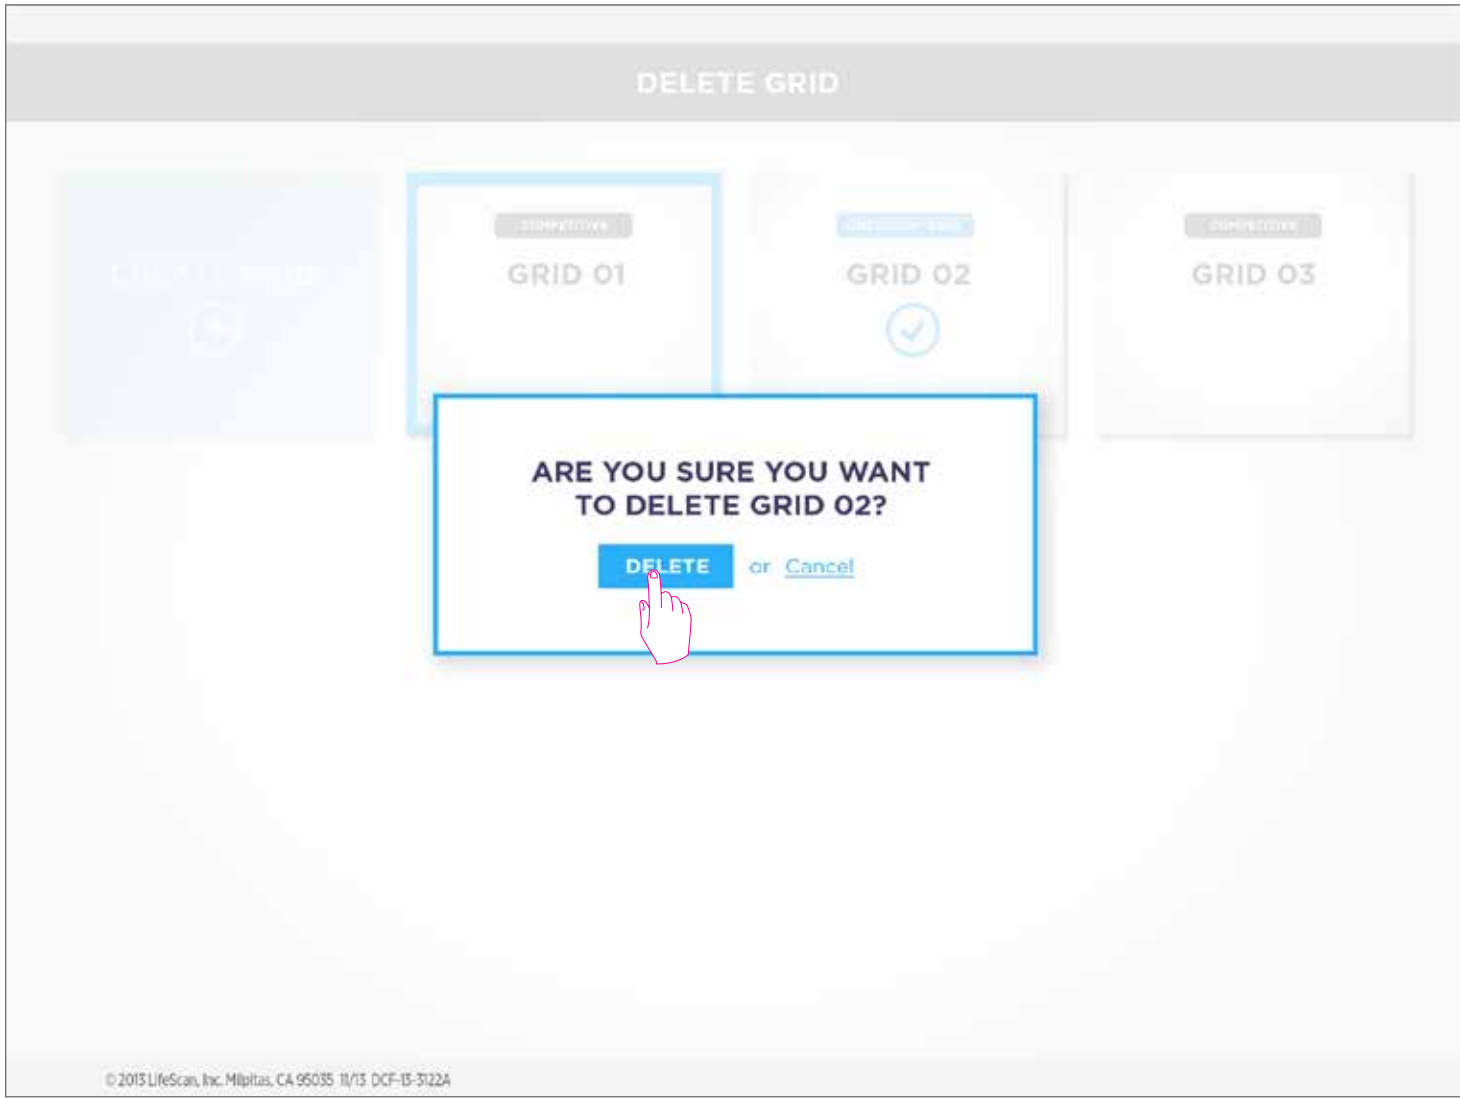

DELETE function continued

Users select the grid they wish to delete by marking it with a check mark icon.

SELECT button takes user to the **DELETE GRID** overlay.

CANCEL button returns user back to the home screen.

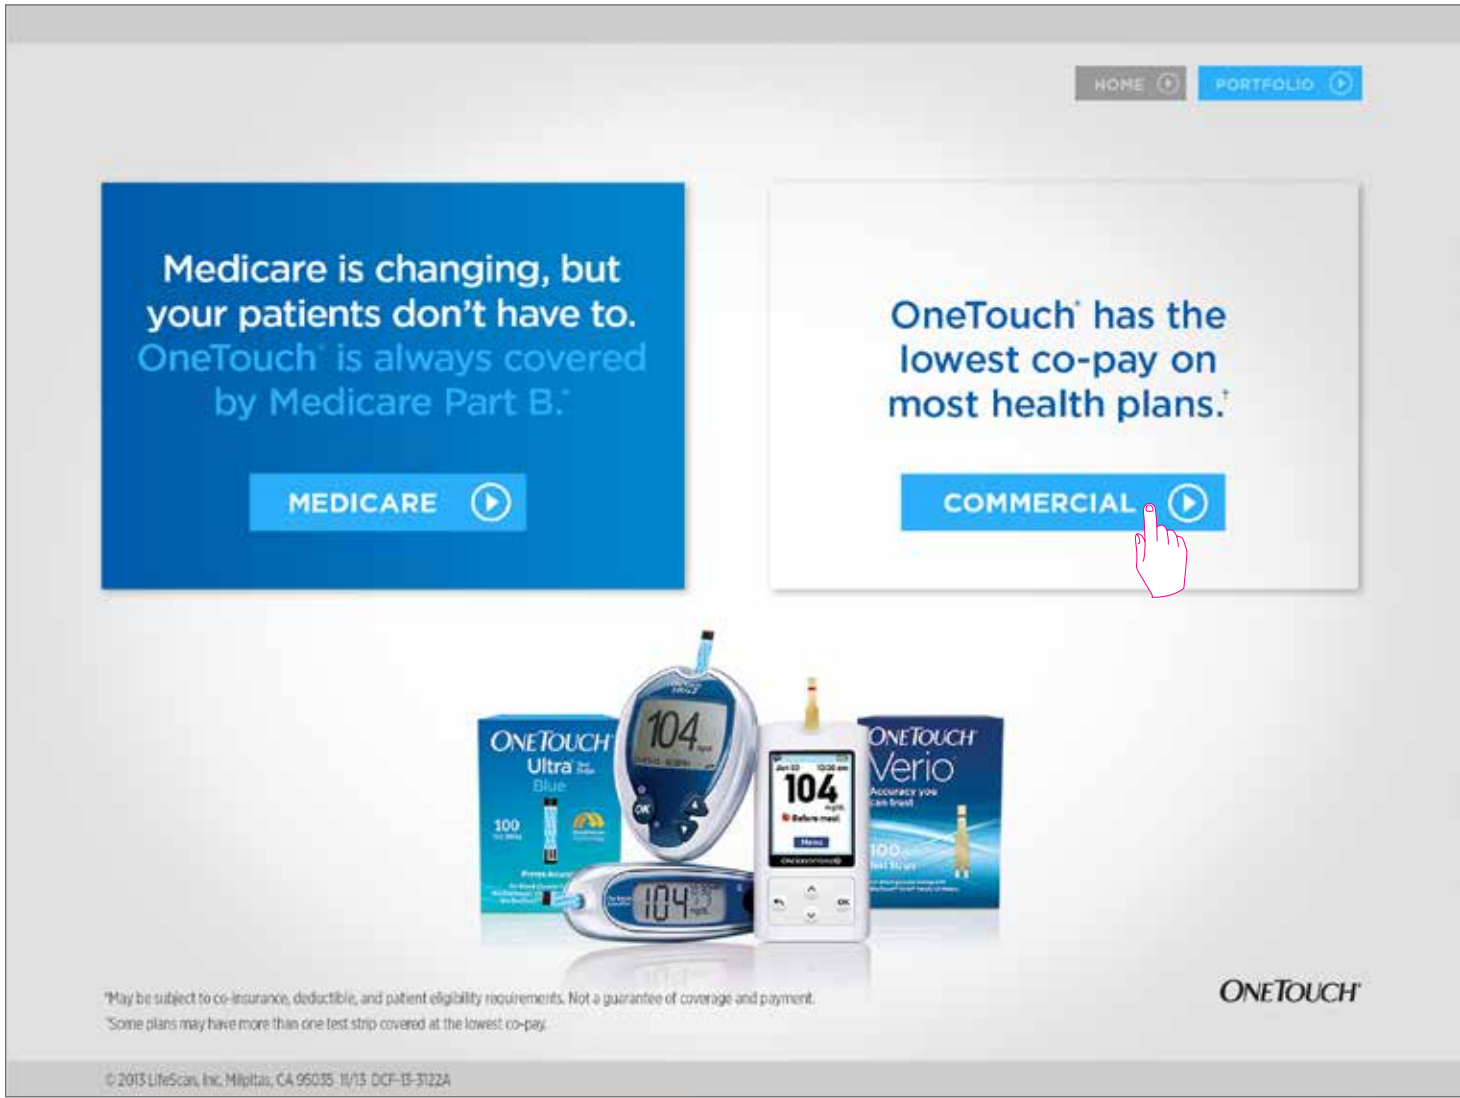

DELETE GRID overlay

An overlay gives users a chance to confirm that they want to delete the specified grid.

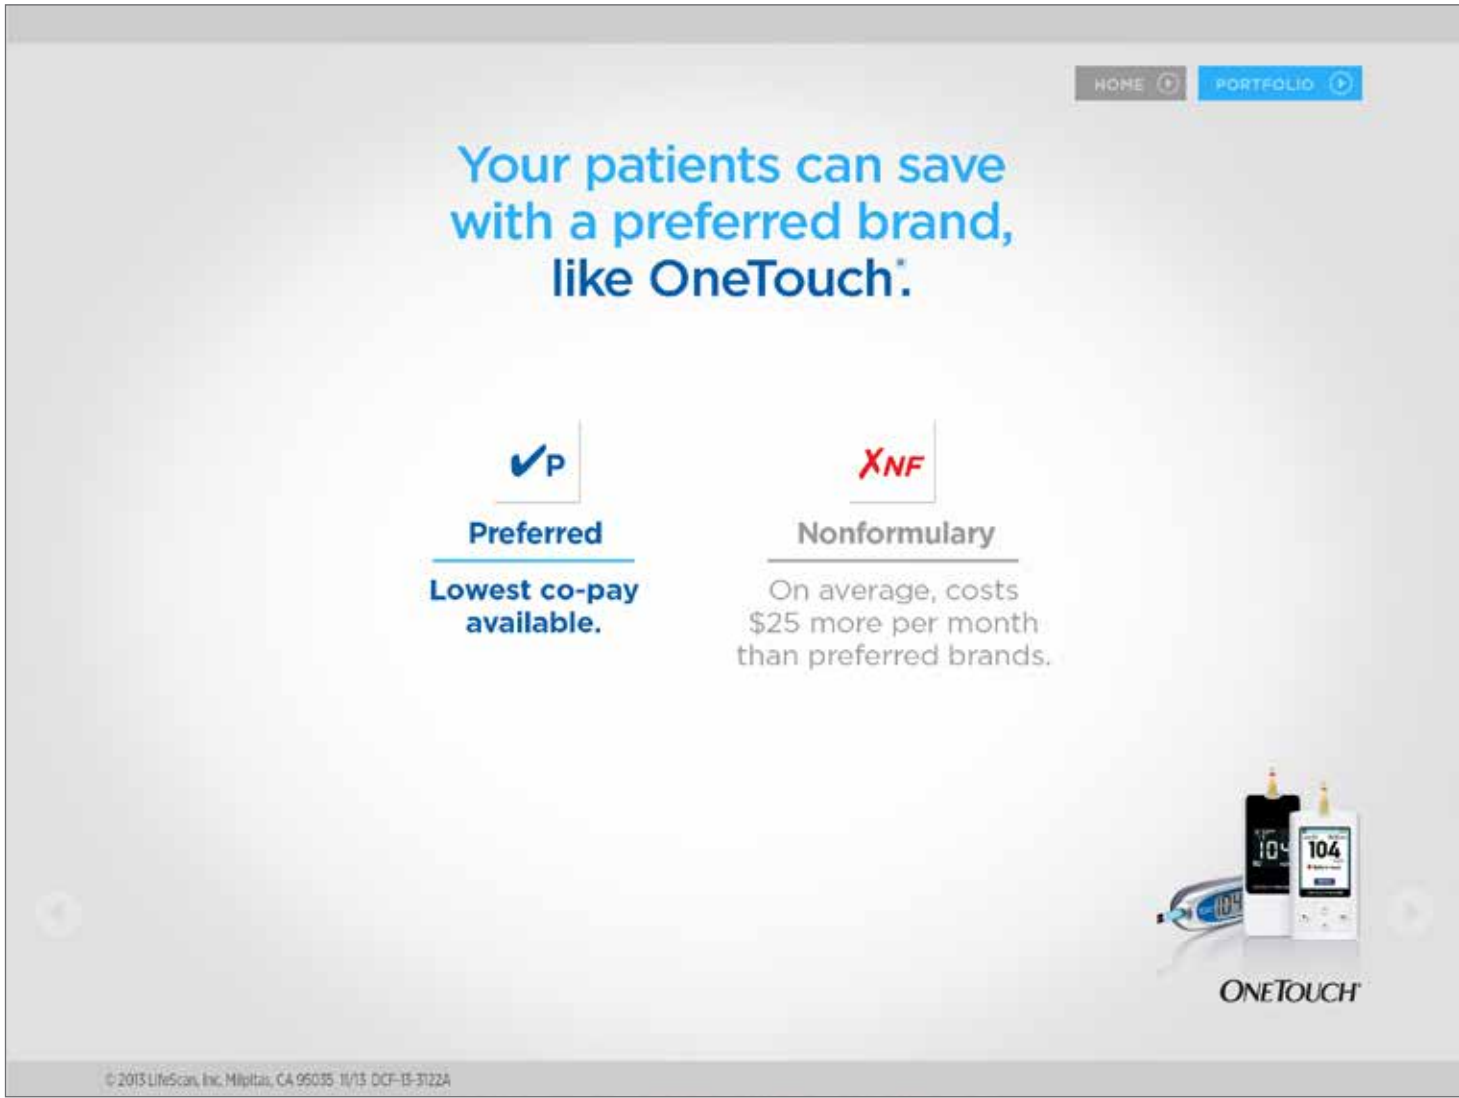

Home screen with deleted grid

The specified grid is now deleted from the home screen.
